Product Description

The ViewSonic M1+ is an ultra-portable WVGA LED projector that delivers convenient entertainment in any room. With a built-in battery and over 30,000 hours of operational life, this projector will deliver years of multimedia entertainment wherever it goes. Weighing less than 1kg, the M1+'s compact and lightweight design makes it ideal for moving from room to room, or for indoor/outdoor usage. The projector's smart stand provides for simple 360-degree setup, while also doubling as a lens cover. Once the lens is uncovered, the projector automatically powers on with full brightness for instant entertainment. The lens also features a safety auto-off feature that powers down the projector when objects are detected too close to the lens. Dual Harman Kardon Bluetooth speakers provide crisp and clear sound for multimedia content, while a short throw lens can display large images in small spaces. Integrated Wi-Fi connectivity lets you stream from your favourite content providers - making the M1+ a great option for sharing and displaying videos and other multimedia content. The M1+'s versatile connectivity options include a MicroSD card slot, USB Type-A, and USB Type-C connections.
