

## **Laser Phosphor. 20,000 hours lifespan. 0.23 ultra short throw**

Powered by a Laser Phosphor light source system, the ViewSonic LS830 laser projector provides resource efficiency solution when compared to traditional lamp-based projectors. Pure laser lasting up to 20,000 hours which delivers long-term, virtually maintenance-free usage. Featuring 1920x1080 Full HD resolution and 4,500 ANSI Lumens of brightness, the ViewSonic LS830 Laser Projector is the ideal solution for high-end retail and luxury commercial use. With an ultra-short 0.23 throw ratio the LS830 can be placed just inches away from a wall or screen to project a huge image. High contrast ratio and pure laser light source displays superior image quality than other DLP projectors.

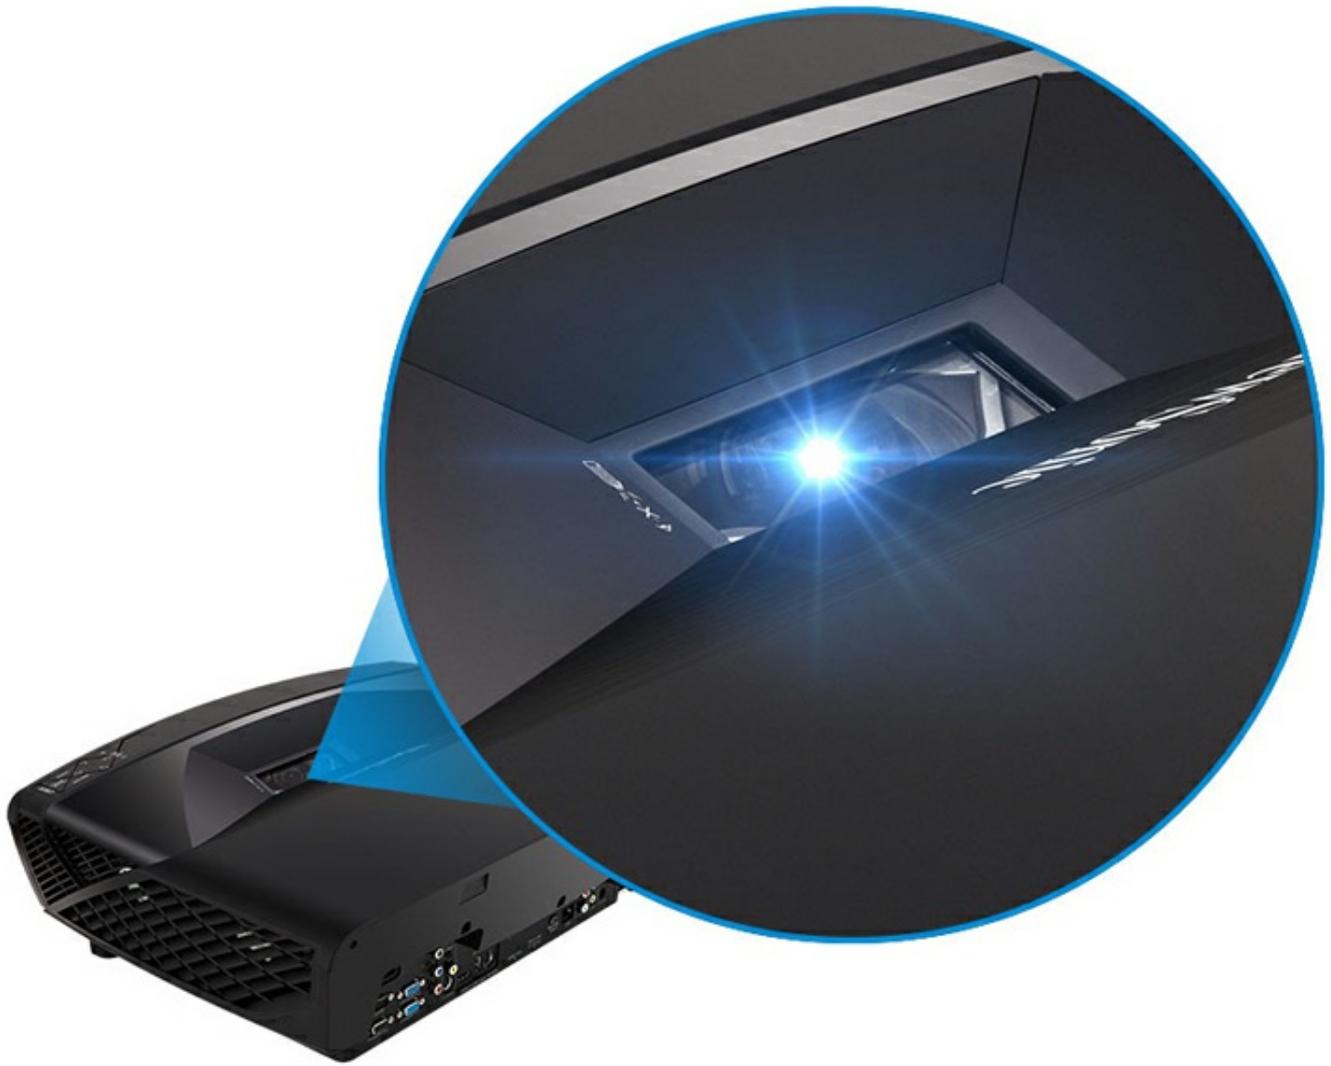

### **Resource Efficiency**

**Long-term, virtually maintenance-free usage**

## **Laser Phosphor Technology**

Unlike traditional lamp based projectors, LS830 is designed with a laser phosphor light source which

provides virtually maintenance-free usage for a lower overall total cost of ownership.

---

## Long-lasting Lifespan

The laser light source offers 20,000 hours of maintenance free operation, delivering reliable long-term performance with no degradation in brightness over time so that your installations are consistently vibrant.

---

**Flexible Installation**  
**Install it just about anywhere**

## **High Brightness**

Packed with 4,500 ANSI Lumens, this projector is guaranteed to produce ultra-high brightness images that will easily accommodate even the largest spaces with high ambient light.

## Ultra-Short Throw Allows for Ultimate Flexibility

0.23 ultra-short throw lens allows for simple and flexible set up. Placing it as close 21cm away from a wall will project a 100" image and give the projector a subtle presence.

## Shipping and Installation Made Easy

The design of optional BrilliantColorPanel™ is light and easy to transport, consisting of a roll-able soft screen that weighs in at a mere 12.5kgs (100\"), making shipping and installation simple.

**Stunning Viewing Experience**  
**Stand Apart From the Rest With Unrivaled Image Quality**

## **Wide Color Gamut**

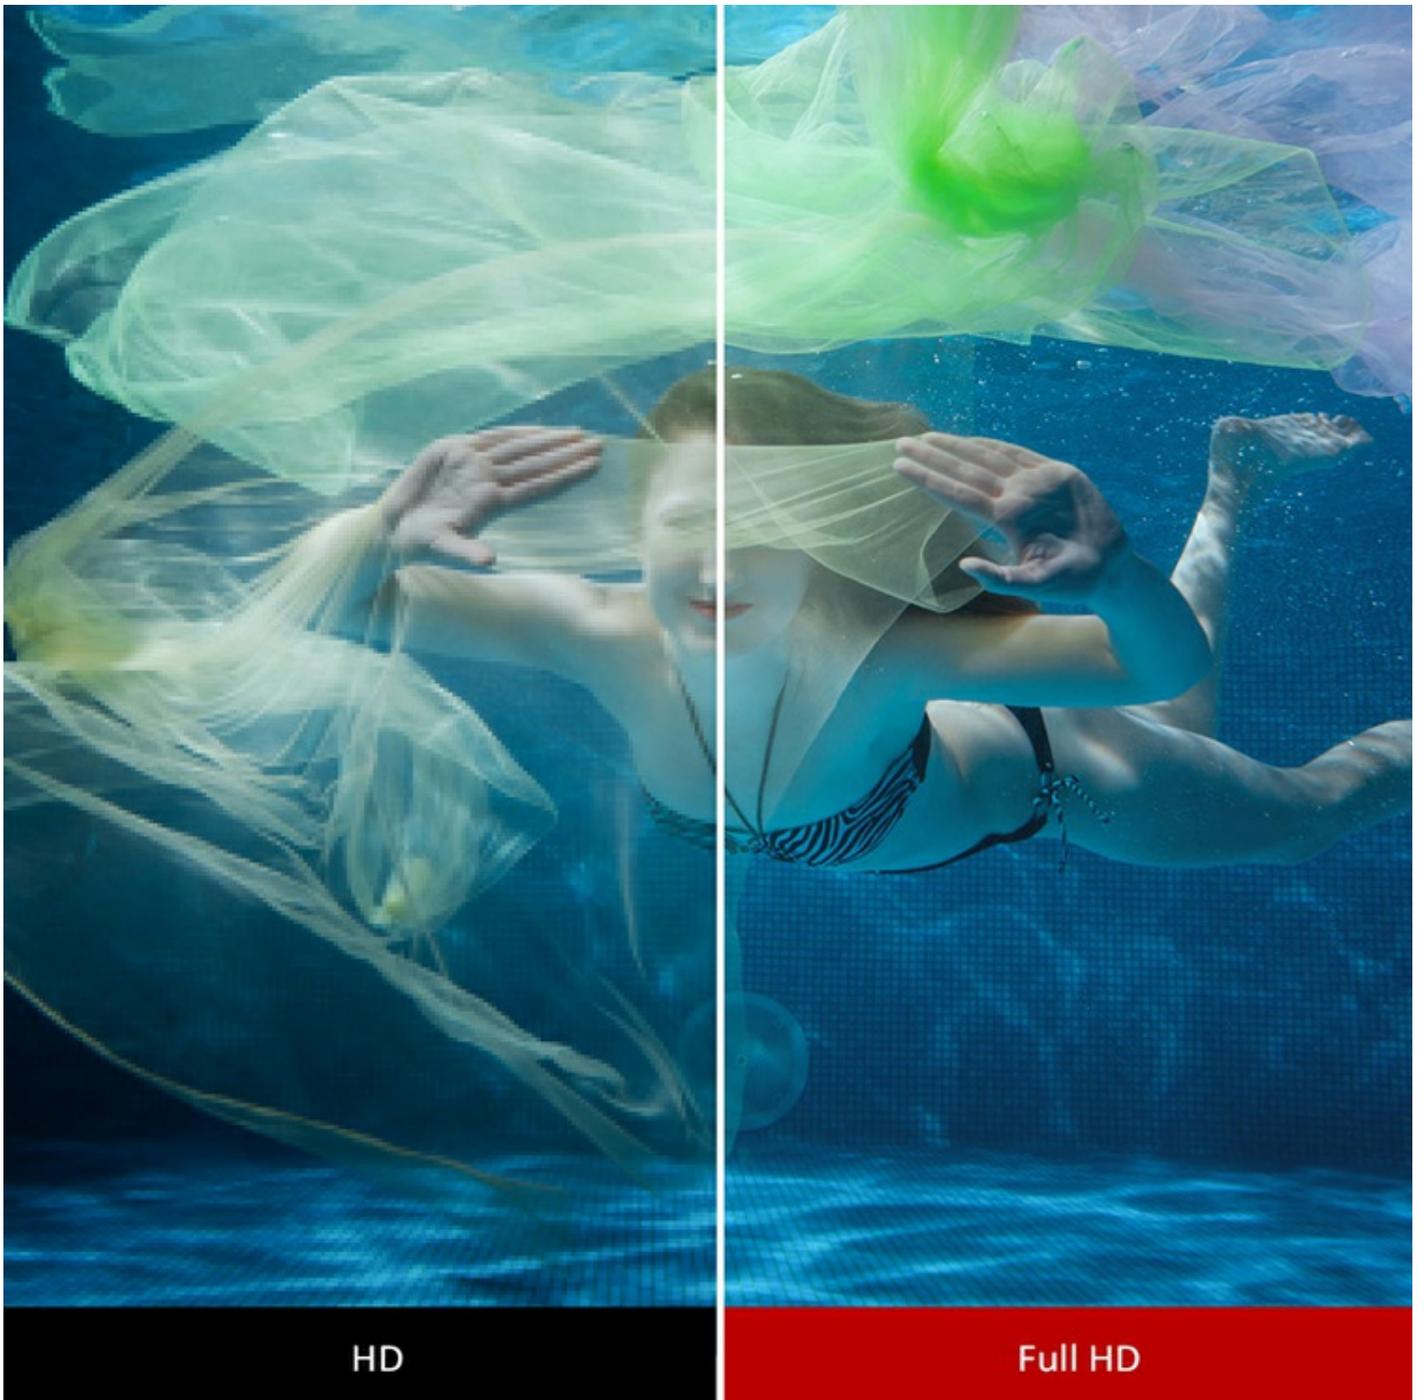

Laser phosphor technology provides wide color gamut coverage, delivering high-brightness and precision detail with deeper, richer colors.

---

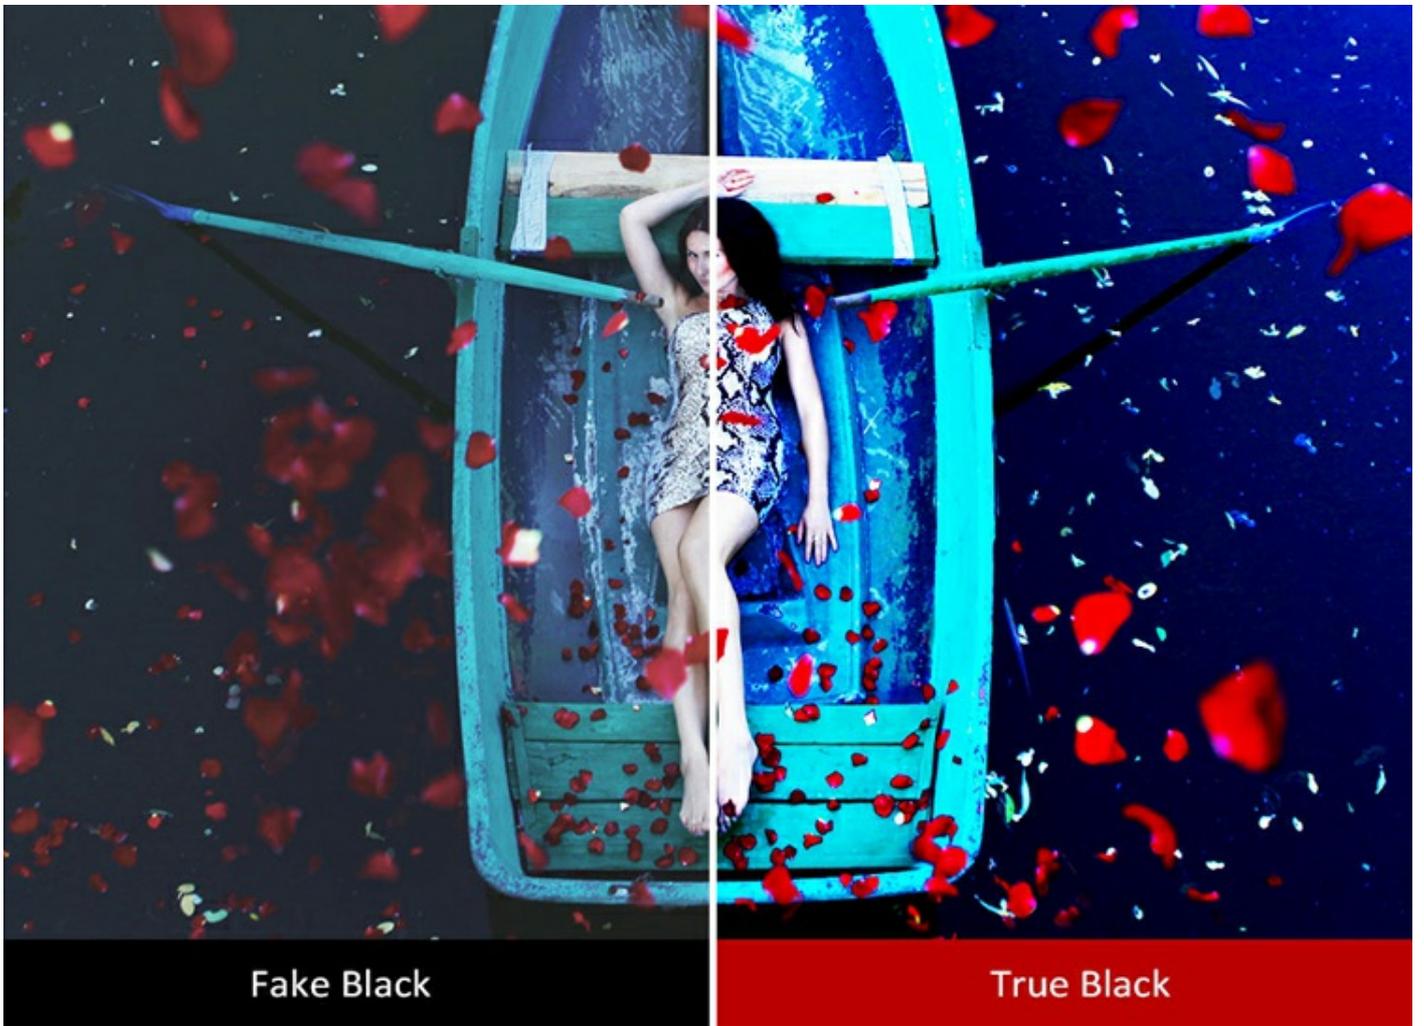

## **Stunning Clarity and Colors**

LS830 features Full 1080p HD color resolution for a sharp, colorful picture without pixel distortion.

## Ultra-high Contrast Ratio

Boasting a 100,000:1 ultra-high contrast ratio, even the finest shades of color are enhanced – a key characteristic for delivering razor-sharp images.

**Bring excellent clarity and detail to you**

## **A Spectacular Visual Sensation**

With options in 100" and 120" BrilliantColorPanel™, it outputs at a 16:9 aspect ratio and offers your audience a stunning viewing experience that lends itself to the phrase bigger is better.

## A Truly Immersive Experience

The optional BrilliantColorPanel™ achieves a contrast ratio 4-times higher than that of an average projector screen and helps to eliminate washed out images.

## Stunning Display in Bright Environments

Engineered with innovative panel technology, the ridged surface of optional BrilliantColorPanel™ is designed to deflect 90% of ambient light while leaving the color being displayed on the screen unaffected.

**Experience Exceptional Sound Quality**  
**Rich and powerful, entering a new wave of projection sound**

## **Powerful Speaker Design, Powerful Sound**

LS830's speaker system comes equipped with a 3" mid-range speaker paired with a 1" silk tweeter for achieving a more balanced, lifelike sound quality. The speaker's ported design allows sound to be thrown further for louder, more concentrated sound.
