# MusicCast BAR 400

Built to Thrill.

Minimalist Design.

## They're all around me.

Take your home cinema experience to new heights with sound that comes from above as well as all around you.

The MusicCast BAR 400 features DTS Virtual:X™ – immersing the audience in exhilarating 3D surround sound from a single bar solution.

## Sounds as good as it looks.

The ideal surround sound system for those with limited space, the MusicCast BAR 400 delivers multi-channel audio in an elegant, space-saving design.

The slim profile allows for discreet placement in front of flat panel televisions without obscuring the screen.

## What was that?

Say 'goodbye' to hard-to-hear dialogue with the MusicCast BAR 400.

Clear Voice modes brings the sound of narration and dialogue to the fore, while keeping the overall sound quality intact. Movies, TV shows, sports commentary, news casts - all instantly more clear and audible.

## On the wall.

Yamaha sound bars not only enhance the audio experience of watching movies at home but are also designed to be positioned discreetly in the room and complement modern televisions.

The ability to wall-mount the MusicCast BAR 400 guarantees a seamless installation and integration with existing furniture.

## Now feel this.

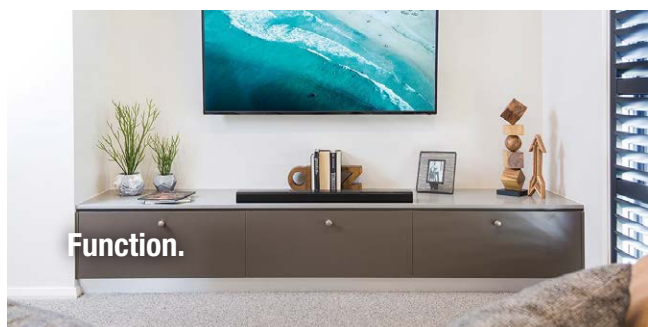

A key benefit of having a sound bar is the ability to minimise clutter – eliminating the need for surround speakers and cables throughout a room.

A wireless subwoofer system takes this a step further by offering even greater flexibility in positioning. Experience explosive bass while enjoying the versatility of being able to place the subwoofer anywhere in the room.
