

Xeo

DYNAUDIO

Xeo

Xeo is the best speaker without speaker cable.
No hi-fi components needed. Many options.

Xeo 3

The best wireless compact speaker with true high-end sound quality.

The Xeo 3 is the ideal combination of easy-to-use wireless technology, high-performance digital amplification and unique Dynaudio speaker know-how.

The Xeo mid/bass driver features a membrane manufactured of Dynaudio's proprietary MSP material, an especially lightweight aluminium voice coil, a large, powerful magnet system and an ultra-rigid, die-cast aluminium frame. A precisely coated Dynaudio soft dome tweeter is used to reproduce the high frequency range. The Xeo 3 tweeters and mid/bass drivers are acoustically optimized to the integrated amplifier via DSP (digital signal processing). You can hear the sound quality no matter what music you play: In terms of fullness and substance, the Xeo 3 exceeds anything you'd expect of such a compact speaker, and features ultra-fine detail while remaining dynamic, balanced and clear. This is a genuine Dynaudio compact speaker, renowned in high-end audio and professional studio circle, but with no speaker cables and with the ideal amplifier already built in. Even the Xeo 3 speaker stands take into consideration ideal living space integration, side board pedestal feet, and wall mount brackets are also available.

Xeo 5

The optimum wireless floor standing loudspeaker with genuine high-end sound quality.

A slimline floor standing speaker with built-in amplifier and no speaker cables delivering high-end sound quality – previously inconceivable before the Xeo 5.

As with the compact Xeo 3, the innovative Dynaudio speaker technology is featured, but in the Xeo 5 dual mid/bass drivers and a larger cabinet volume are utilized. In concert with the high-performance digital amplifier, an incredibly deep bass response is achieved, allowing the Xeo 5 to perform magnificently even in larger spaces. These technologies unite with the advanced Dynaudio soft dome tweeters in the Xeo 5 to deliver a perfectly balanced and incredibly dynamic reproduction of music that remains powerful yet rich in clarity and detail. You'll be impressed by the voluminous, the full sound and intensity of every note, even when enjoying live performances. A pair of Xeo 5s flanking the flat screen TV outperforms the sound of any built-in speaker or sound bar, and provides the feeling of a home cinema – even without a subwoofer. Normally this sound quality is only reserved for a meticulously configured hi-fi system – but the Xeo 5 already has the ideal amplifier built in, and what's more, it's wireless!

Technical Specifications	Xeo 3	Xeo 5
Frequency response	48 Hz – 22 kHz	36 Hz – 22 kHz
Power consumption	4 – 76 W	4 – 76 W
Power consumption standby	0.6 W (network active)	0.6 W (network active)
Power rating	Woofer: 50 W, Tweeter: 50 W	Woofer: 50 W, Tweeter: 50 W
Dimensions (W x H x L)	170 x 281 x 246/262 mm (6.7 x 11.1 x 9.7/10.3 inch)	170 x 922 x 260/275 mm (6.7 x 36.3 x 10.2/10.8 inch)
Weight	6.4 kg	16.7 kg
Power supply	100 – 230 V	100 – 230 V
Finishes	White Piano Lacquer Black Piano Lacquer Satin White Lacquer Satin Black Lacquer	

Technical Specifications	Transmitter
Transmitter signal frequency	2.4 GHz
Wireless signal resolution / sample rate	16 bit/48 kHz, accepts up to 24 bit
Frequency response	20 Hz – 22 kHz
Typical input voltage	RCA: 1 V _{rms} , Minijack: 250 mV _{rms}
Input impedance	RCA: 11.4 kΩ, Minijack: 8.2 kΩ
Dimensions (W x H x L)	120 x 32 x 90 mm (4.7 x 1.3 x 3.5 inch)
Weight	0.148 kg
Power Supply	Adaptor: 100 – 240 V Micro USB: 5 V / min. 500 mA
