

Luxury Sound Freedom with Loved Ones

Whatever interior ambience you've created for your living space—a sanctuary where memorable moments are shared every day with the people you love—the FS-W50 Free Style Sound System enhances its personality with immaculate style and convenient “free layout” concept. Accented with luxurious aluminum and ceramic-like textures, the slimline AV Center liberates home entertainment, from anticipated TV and movie events that bring families together to virtually any streaming music you feel like through compact yet powerful loudspeakers. The surround-expandable and multi-room-ready system can be positioned anywhere you desire, subtle contours blending and adding a hint of sophistication to modern or traditional design schemes. Naturally, as a Pioneer product, sound quality is sublime. It's freestyle sound—liberating entertainment in a way that's very zen.

- › Weight: (AV Center) 3.2 kg, (L/R Speakers) 1.7 kg (ea.), (Subwoofer) 7.4 kg
- › Simple Remote Controller, FM/RDS Antenna, and Setup Guide

Chic Style for a Clean Installation

The sophisticated FS-W50 has a silk-gloss aluminum top panel with ceramic-like fascia, touch-sensitive buttons, and FL display. More than a stylish centerpiece, the AV Center reduces cable clutter and simplifies on-wall TV installation.

Total Wireless Freedom

These beautiful powered speakers match any interior design scheme and can be placed wherever desired. A distance calibration system balances the stereo image in asymmetric layouts. Add optional Pioneer wireless rear speakers (FS-S40) for expansive 4.1-channel surround-sound.

Optional FS-S40 Speaker System

Dual-band Wi-Fi® and Bluetooth® Technology

You can stream audio from mobile, laptop, and PC over 5 GHz/2.4 GHz Wi-Fi® for a stable wireless connection. Pioneer Remote App gathers music on the device and on network-attached storage devices into an easily navigated library together with access to available streaming services. *Bluetooth®* wireless technology is also included for convenient transmission of app-based audio to your entertainment system.

Music Made Easy with Chromecast built-in*

Stream any music from your smartphone, laptop, or PC to the FS-W50 with ease. Control playback with Chromecast-enabled apps you know and love from your iPhone, iPad, Android™ phone or tablet, Mac or Windows® laptop, or Chromebook.

Chromecast built-in

* Enabled with a firmware update.

Ready for DTS Play-Fi® Multi-room Audio

DTS Play-Fi allows you to enjoy high-quality music from connected online services, networked media servers, and your device library over Wi-Fi® to any number of compatible products using the Pioneer Music Control App for iPad, iPhone, and Android™ smartphones/tablets. DTS Play-Fi can synchronize the music in every room. Each member of your family can use their own device to listen to their own music in their room or group of rooms. DTS Play-Fi lets you easily structure a comprehensive multi-room ecosystem that satisfies virtually any need. For more information, visit www.play-fi.com.

* Enabled with a firmware update.

Includes TIDAL*, Spotify®, Deezer®, and TuneIn

Native support for the world's most popular streaming and internet radio services* opens new horizons in entertainment. Use dedicated apps (where available) or Pioneer Remote App to enjoy streaming audio with room-filling sound.

* Requires firmware update before operation. Some services may require a subscription.

Compatible with Ultra HD Video

HDMI® terminals support Ultra HD Blu-ray™, broadcast, and streaming video with HDCP 2.2 compliance. Other features such as 4K/60 Hz, BT.2020 color, HDR, and 4:4:4 color space exploit next-generation content.

Listen Your Way

The FS-W50 decodes most popular stereo and multichannel audio formats and offers a range of listening modes so you can enjoy the sound that suits you and your content best. Hi-Res Audio via network and USB is also supported.

Easy Operation

Wireless speakers connect automatically the moment the AV Center detects an incoming signal, and powers down by itself once you're done. As well as Pioneer Remote App, you can use the remote controller to navigate a simple graphic interface to select sources and change AV settings.

FlareConnect™ Wireless Multi-room Audio

FlareConnect* shares audio from network and external audio input sources between compatible components. Enjoy effortless multi-room playback of LP records, CDs, network music services, and more with supported components and speaker systems. Music selection, speaker grouping, and playback management across the home are built into the Pioneer Remote app**.

* Sharing audio from external inputs is enabled with a future firmware update. External audio inputs supporting FlareConnect may differ depending on model. Please consult individual product specifications for more information.
** Download free from the App Store or Google Play.

INTEGRATED TECHNOLOGIES

Note: FlareConnect™, TIDAL, and Deezer require firmware update.
