SONY

HT-CT390

Ultra-slim Sound Bar with Bluetooth

Elevate every scene and song with this ultra-slim, 2.1 channel Bluetooth® sound bar plus wireless subwoofer that delivers impressive sound and thunderous bass in any room.[2] Stream music easily from your smartphone[4] and even control your sound bar and TV with a single remote[1]. All in a stylish, 2-inch design that lies flat or mounts discreetly on a wall. Thin has never sounded bigger.

Bullets

- Connect and stream music[4] easily with Bluetooth® and NFC[2]
- Stream[4] and control right from your smartphone with SongPal[2,3]
- Dual-position, wireless subwoofer for flexible setup

- Control your TV and sound bar with a single remote via HDMI ARC[1]
- Space-saving, wall-mountable design
- Connect a USB device to the USB port to enjoy audio playback[3]

Features

Connect and stream music[4] easily with Bluetooth and NFC[2]

Connect and stream music[4] easily from your smartphone, tablet, or laptop with Bluetooth® and NFC.[2]

Stream and control from your smartphone with SongPal[2,3,4]

Download the SongPal app for your smartphone or tablet and take control of your music collection. Simply connect via Bluetooth and control volume and playlists.[2,3] Enjoy seamless access to all your favorite tracks—whether they're stored on your phone or via your favorite online music app.[4]

Dual-position, wireless subwoofer for flexible setup

The wireless subwoofer works both upright or horizontally anywhere in the room for flexible setup and rich, powerful bass.

Control your TV and sound bar with a single remote[1]

HDMI ARC (Audio Return Channel) means audio is also carried back to your sound bar from compatible TVs, without the need for an extra audio cable. This allows every device connected to your TV to be heard through the sound bar, so you can control everything with a single remote.[1]

Space-saving, wall-mountable design

The sleek, 2-inch profile discreetly mounts to walls to save on space. It also lies flat in front of the TV without blocking the screen or interfering with IR receivers.

Music playback via USB

Connect a USB device to the USB port to enjoy audio playback. Control via the free Songpal app and with your phone or tablet.[2,3]
