## All affordable. All connected.

Offering great connectivity options, this range of projectors form the bedrock of our comprehensive array of devices. Low cost, yet offering great value for money, each option is affordable without compromising on the quality of image or ease-of-use. There's no loss in colour quality between PC screen and what's shown in projection and you can connect via HDMI or MHL with your smart device. And because they're compact and weigh only 2.6kg, their unique design and visual appeal complement their intuitive interface.

- Affordable model options include the PJ S2440 (SVGA), PJ X2440 (XGA) & PJ WX2440 (WXGA)
- Excellent connectivity with HDMI and MHL
- Compact and lightweight, with unique and visually appealing design
- Suitable for multi-room sites including corporate meeting rooms and classrooms
- High-contrast colour and 5,000h lamp-life

# Projectors with no strings attached.

## Sublime design. Accessible to all.

Quick to set up and very easy-to-use, these projectors offer real value for money without compromising on quality. Each model in this range is uniquely designed for quick and easy projection and suits any budget. Their innovative style integrates into any office or classroom setting too.

## Connectivity that captures your audience.

Offering a variety of connection methods you might not expect in such affordable models, you get two HDMI ports with one supporting MHL. With MHL you can mirror mobiles and tablets directly to the projector. So you can use an array of different devices to get your message across.

## The quality and durability you need.

With a lamp-life that offers up to 5,000h of projection, the PJ S2440, PJ X2440 & PJ WX2440 are reliable and there for you day after day. Their high-contrast colour means you can create content and presentations the way you want them, knowing they will transmit without loss of quality to the screen.

## The perfect set-up. Wherever you are.

Thanks to their considered design and ease of operation, you can position any of these projectors almost anywhere. In fact, each device is so suited for quick and easy projection, they're perfect for classrooms, meeting rooms and boardrooms – or for almost any other projection need.
