

## EH415ST

## A compact and versatile package

- Bright 1080p projection 3500 ANSI Lumens
- Short throw lens 100" image from just over a metre away
- Support for Crestron, Extron, AMX, PJ-Link and Telnet commands over LAN
- Easy connectivity 2x HDMI and built-in 10W speaker

#### **EH415ST**

The EH415ST is designed for delivering superior quality presentations in classrooms, small meeting rooms or training rooms. This full HD 1080p projector offers stunning image performance from a short distance. It also boasts a brightness rating of 3,500 ANSI lumens, which is ideal for use without dimming the lights.

The projector can be managed and monitored remotely with Crestron RoomView®, Telnet, Extron IP Link, AMX and PJ-Link, which allow almost all aspects of the EH415ST to be controlled across a network.

The EH415ST's impressively long lamp life (7,000hrs Eco+) and energy-saving features both contribute to a low overall cost of ownership.

#### **Short throw projection**

With a short-throw lens, this projector can produce large screen sizes from a short distance. This means you can get a 100 inch image, with the projector placed just over a metre away from the screen or wall.

#### **High contrast**

Add more depth to your image with a high contrast projector; with brighter whites and ultra-rich blacks, images come alive and text appears crisp and clear - ideal for business and education applications.

#### Full 3D

Optoma projectors can display true 3D content from almost any 3D source, including 3D Blu-ray players, 3D broadcasting and the latest generation games consoles. Support for 144Hz rapid refresh rate

provides ultra-smooth flicker free images.

#### Integrated speaker

The built-in speaker offers excellent audio support. Easy to set up without the need for costly external speakers

#### Eco+

Eco+ technology brings together high contrast, improved lamp life and energy saving features that are easy to use while reducing power consumption.

#### **Energy saving**

Using the specially designed lamp modes, you can reduce the power consumption by up to 70%. Each mode also has a positive effect on the lamp life, while lowering the total cost of ownership and reducing maintenance

#### **Quick resume**

This feature allows the projector to be instantly powered on again, if it is accidentally switched off.

#### Auto power off

There may be instances when the projector is left running when not in use. To help save energy, the "Auto Power Off" feature automatically turns off the projector after a set period of time if it is not being used

#### **Eco AV mute**

Stay in control of your presentation with Eco AV mute. Direct your audience's attention away from the screen by blanking the image when no longer needed. This also reduces the power consumption by up to 70%, further prolonging the life of your lamp.

#### Long lamp life

Reduce the number of lamp change with lamp life of up to 7,000 hours using the education cycle.

#### Remote mouse

Keep your audience's attention focussed on the right things using the simple, yet powerful remote with USB mouse control.

#### **Networking and control**

Featuring a wide range of options you can remotely control and monitor the projector.

- RS232 - Optoma projector's come with an extensive set of RS232 commands making it simple and easy to manage using any control system.
- AMX Compatibility - Dynamic discovery protocol is incorporated into the projector allowing for easy installation with AMX control systems.
- LAN Control - Using the compatible RoomView® software you can power on/off, monitor, manage and control up to 250 projectors at the same time from any computer.
  - Schedule the projectors to power on/off.
  - Control and alter the projector settings using the simple web browser.
  - Emergency text broadcast capabilities for urgent or important announcements.
  - Automatically receive email updates for lamp maintenance.

Colour guarantee

Enjoy dazzling colours for years to come; guaranteed by Optoma for five years' consistent performance.

#### **Amazing colours**

For vibrant, natural looking images, Optoma projectors incorporate BrilliantColor™ multi-colour processing technology.

#### **Wireless Presenting (optional extra)**

Making presentations couldn't be easier using the optional wireless features of the WPS Wireless Adapter (sold separately) - you can connect and display presentations wirelessly from a laptop, PC or

mobile device.

#### **USB** power

Use the USB-Power to power an HDMI dongle, such as Google Chromecast or charge your Optoma 3D glasses.

<sup>1</sup>Lamp based projectors brightness and lifetime will vary depending on selected projector mode, environmental conditions and usage. As is common with all lamp based projectors, brightness will decrease over the lamp lifetime. LED projectors do not have a replaceable lamp and the brightness does not decay significantly over the product lifetime.

 $^2$ Typical lamp life achieved through testing. Will vary according to operational use and environmental conditions
